Don Lee Farms all-natural
Veggie Patties
deliciously versatile™

When we set out to create our all-natural vegetable patty, we didn't begin with the goal of being "meatless." We began with the word "delicious." Because that's what really matters. Take one bite and you'll see what we mean. A delightful harvest of fresh carrots, onions, celery and bell peppers are blended with bread crumbs, delicate seasonings, and crunchy sunflower seeds to create a patty that is light and moist, yet firm enough to grill. It's not an imitation of meat...it's a natural, delicious alternative to meat. Try it out as a burger with all of your favorite toppings, or use it in your recipes for tacos, salads and wraps. Delicious, versatile and, yes...good for you!
